DETAILED ACTION

This is in response to communication filed on 8/14/07 in which claim 2-6, 9-12, 16-27, 29 and 31-40 are pending. The applicant's amendments have been fully considered therefore this is in condition for allowance. In addition the pending claims have been renumbered as 2-14, 1, 15-19, 23-29, 20-22 and 30-32, respectively.

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael Chasan on 9/21/07.

The application has been amended as follows: In line 4 of claim 38, "protocol" has been deleted and replaced with --data rate--

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: the prior arts of record fail to anticipate or render obvious the following recited features: a dynamically adjustable parts per million (PPM) detector that receives as input the reference clock signal, the recovered clock signal, and a PPM control signal operative to output a signal when a frequency difference between the reference clock signal and the recovered clock signal is within a dynamically controllable frequency setting controlled by the PPM control signal as recited in claim 20. Determining when a frequency difference between

Art Unit: 2611

the reference clock signal and the recovered clock signal is within a predetermined dynamically controllable frequency setting controlled by a PPM control signal as recited in claim 26.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

1. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Prentice et al U.S. patent NO 6,397,042 B1 teaches a self test of an electronic device.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Emmanuel Bayard whose telephone number is 571 272 3016. The examiner can normally be reached on Monday-Friday (7:Am-4:30PM) Alternate Friday off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Chieh Fan can be reached on 571 272 3042. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
